

Built for the field, ready for anything

Field-first process management
and data collection with Fulcrum

Fieldwork’s biggest headaches

Outdated tools and fragmented systems hold field teams back.

Let’s fix that.

Manual data entry slows progress

Tedious, error-prone processes waste time and create inefficiencies.

Disconnected systems create silos

Field and office workflows don’t align, making collaboration difficult.

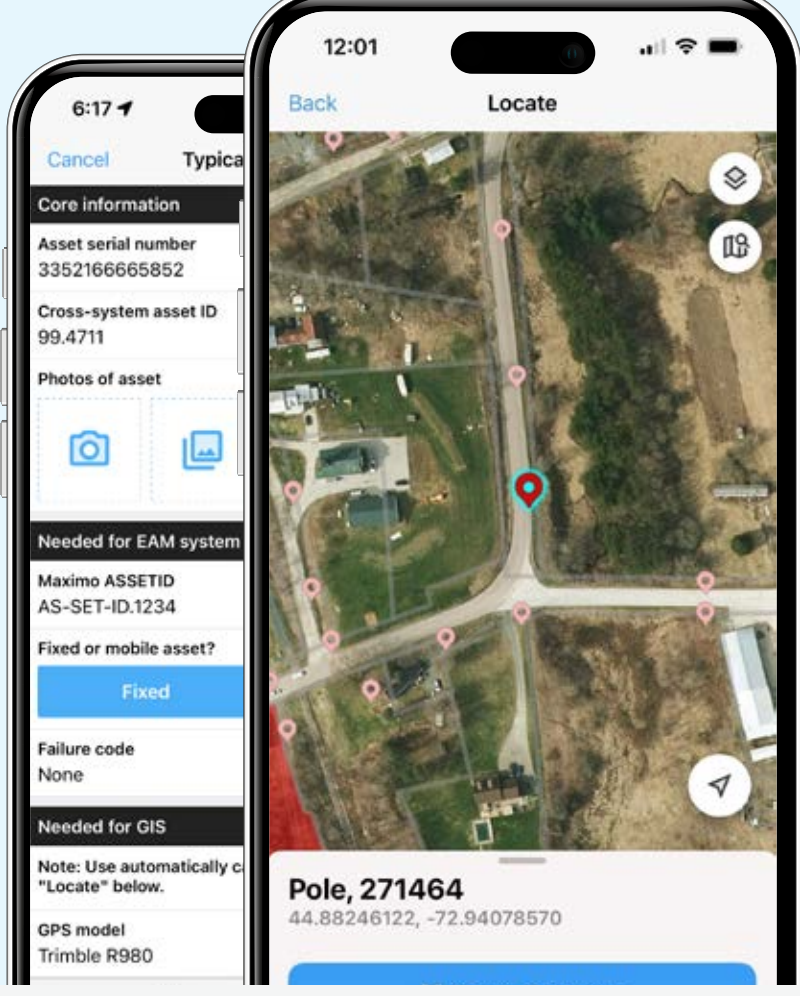

Outdated tools fail under pressure

Custom apps and bolt-ons are costly, slow to deploy, and hard to scale.

Fulcrum’s best breakthroughs

Say goodbye to frustration. Fulcrum is here to simplify, streamline, and power up your field operations.

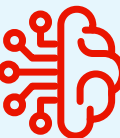

Customizable workflows

Build apps in minutes with drag-and-drop tools—no IT required.

Geospatial intelligence

Capture, visualize, and analyze field data with built-in GIS capabilities.

AI-powered efficiency

Automate workflows with Photo and Audio FastFill to save time and reduce errors.

Offline reliability

Continue working without interruption, even in remote areas.

Integrations that elevate

Keep the field and office perfectly in sync by letting the data flow.

Here’s how Fulcrum makes it happen.

Two-way integrations

Connect field and enterprise systems seamlessly, ensuring data flows consistently between teams for actionable insights.

Real-time data sharing

Sync data instantly between the field and office, giving everyone access to up-to-date information when it matters most.

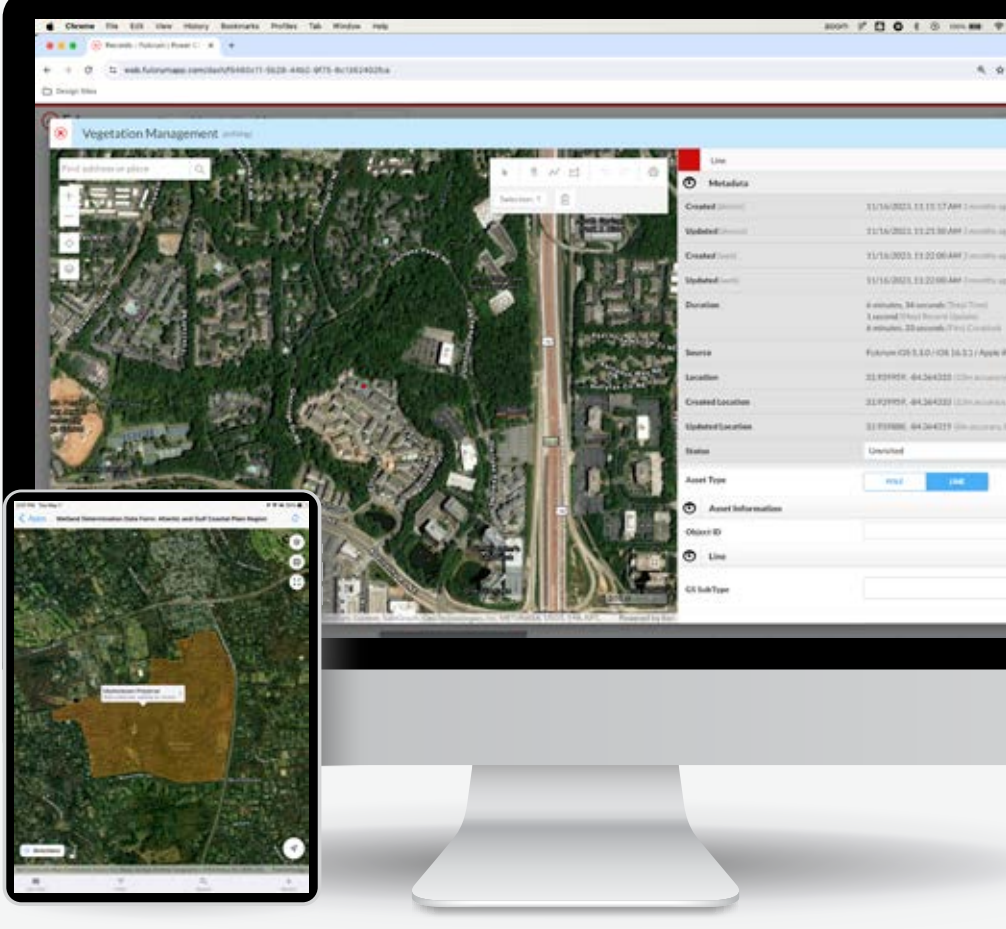

Simplified deployments

Reduce the complexity of managing multiple apps by using one platform that integrates easily across your existing systems.

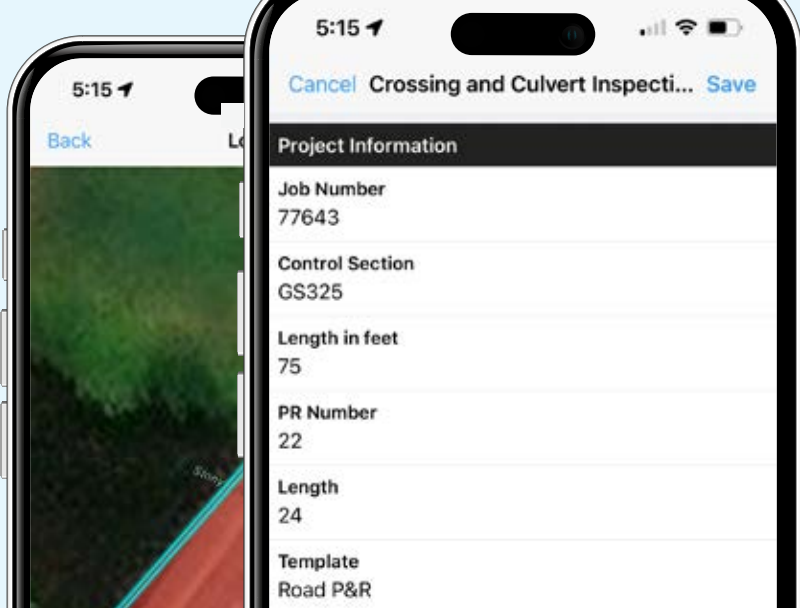

Custom workflows

Adapt Fulcrum to your organization’s unique tools and processes by connecting with GIS, ERP, EAM, and other platforms.

AI that gets its hands dirty

Fulcrum’s AI takes on the repetitive, time-consuming tasks, freeing your team to focus on work that moves the needle. And rest assured, your data is never used to train AI models.

Audio FastFill

Talk it out and let AI take over. Turn observations into structured data without lifting a pen or tapping a keyboard.

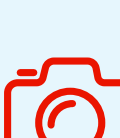

Photo FastFill

Point, shoot, and let AI do the rest. Capture labels, serial numbers, or equipment details, and watch fields populate instantly—no manual entry required.

Proven time savings

With Fulcrum’s AI tools, teams **save 20% or more** on inspection tasks, speeding up workflows and cutting costs.

Tech that IT trusts

Fulcrum reduces complexity, giving IT teams control without the headaches.

Simplifies deployments by replacing multiple mobile apps with one powerful platform.

Supports enterprise-grade security with SOC 2 compliance, SAML-based SSO, and SCIM provisioning.

Integrates seamlessly with GIS, ERP, and other enterprise systems to keep workflows smooth and connected.

Proof is in the performance

From time savings to data quality, Fulcrum delivers.

Cut repetitive tasks with AI-powered tools.

Streamlined processes and automated data capture make fieldwork faster.

Boost data quality while simplifying how teams handle and validate information.

Field teams trust Fulcrum

Nearly **3,000 organizations** have already transformed their field operations with Fulcrum.
